

### **LinkedIn's 5 most in-demand soft skills of 2019**

According to Charlton (2019) the following 5 skills are seen as the most desired soft skills in 2019 by LinkedIn Learning:

1. Creativity
2. Persuasion
3. Collaboration
4. Adaptability
5. Time management

Employers are looking for a combination of both hard and soft skills in candidates. Creativity is topping the list of desired skills (Charlton, 2019). LinkedIn Learning editor, Paul Petrone, wrote that: "strengthening a soft skill is one of the best investments you can make in your career, as they never go out of style." He adds: "Plus, the rise of AI is only making soft skills increasingly important, as they are precisely the type of skills robots can't automate." (Charlton, 2019).
